SPIEZLE HEADQUARTERS PURSUING LEED™ EB SILVER CERTIFICATION

Trenton, NJ (June, 2007) -- **Spiezle Architectural Group, Inc.** (SAG) is currently pursuing LEED™ EB Silver Certification in addition to completing a green house gas assessment for the renovations of our Headquarters Office in Trenton, New Jersey.

The 15,000 sf 1960's office building is the home to our main headquarters and nearly-50 employees. SAG has committed to having all its technical staff LEED™ accredited by the end of 2008 and walking the walk with the LEED™ EB certification of our office building and green house gas assessment of our operations. As we help our clients obtain LEED™ certification and provide green house gas assessment services, it is only fitting that our own operations and facilities meet this environmental challenge. Our company, which is 100% employee owned, has taken the initiative to lead by example.

For additional information about the capabilities and services of Spiezle Architectural Group, Inc. please contact: Tara Jarousse, Marketing Manager, tjarousse@spiezle.com or 609.695.7400.
